

**SCOPUS AUTHOR ID -HOW TO MERGE MULTIPLE IDs** 

### SCOPUS AUTHOR IDENTIFIERS (IDs)

- Scopus Author ID is automatically assigned when you publish two or more works in a journal indexed by Scopus.
- The algorithm generates your ID based on your name, email, affiliation, subject area, citations and co-authors.
- You may have more than one ID generated if you have published with variant names and affiliations.
- Having a Scopus Author ID allows you to easily see a list of your publications and view citation metrics such as h-index measures, citation counts, publications and co-authors.
- Scopus Author ID can be linked to ORCID so publications can be imported into your ORCID.
